SUMMARY

Product Manager with 6 years of experience in 0-1 SaaS, AI & Analytics, and PLG, leading product strategy, discovery, roadmapping, and Go-to-Market (GTM) across AI/LLM, Healthcare, EdTech, and B2B SaaS. Led 15+ engineers and designers through stakeholder management and cross-functional execution. Contributed to \$1.2M+ revenue growth across products serving 700K+ users through experimentation and product analytics.

WORK EXPERIENCE

Product Manager | Rise11 AI

Apr 2023 - Present

- Own product vision and roadmap for AI/SaaS products; partner with Co-Founders and CTO on OKRs, North Star metrics, and executive decision-making.
- Own the full product lifecycle - discovery, product backlog management, prioritisation, build, launch, and iteration - while leading 15+ engineers and designers and driving cross-functional collaboration with design, engineering, business, and ops.
- Drive user research and discovery to define problem statements and hypotheses; write user stories and prioritise the roadmap using RICE and business impact, supported by SQL, GA4, and Mixpanel analytics.
- Defined and executed Go-to-Market (GTM) and Product-Led Growth (PLG) motions for new SaaS products and major features - positioning, adoption, launch readiness, and post-launch optimisation.

Selected 0-to-1 outcomes owned in this role:

- iTrails.ai (US Healthcare, B2B SaaS): Took generative AI / RAG patient-eligibility platform from discovery to launch; cut patient review time 75% (180s to 45s).
- Growth Ops (Marketing Intelligence, B2B SaaS): Shipped AI/LLM acquisition and attribution product; improved conversion 29% (2.8% to 3.6%) and ROAS 41% (2.9x to 4.1x).
- Zetaleap.ai (EdTech SaaS): Led B2B/B2C learning product from scratch through launch and iteration; raised onboarding conversion 41% (22% to 31%) and weekly active retention 44% (34% to 49%).

Associate Product Manager | Rise11 AI

Sep 2020 - Mar 2023

- Increased onboarding conversion 53% (19% to 29%) through user research, customer interviews, and activation flow improvements.
- Improved payment success 25% (71% to 89%) via checkout UX, UPI/API integrations, and transaction recovery.
- Owned recommendation and search from discovery to launch, increasing engagement 22%.
- Akashvaani.com (0-to-1 marketplace): Owned expert discovery and booking experience; grew ARPU 45% (Rs.420 to Rs.610).
- Ran A/B tests and feature-flagged experiments that informed onboarding, payment, and engagement improvements shipped in this role.
